

Fir Trees News

Summer Term 1 2019

Dear Parents

Our caterpillars arrive during the first week of the new term. We will watch their progress and concentrate on the butterfly life cycle. Eventually the children will be able to release them into our nursery garden. We will have all the 'Hungry Caterpillar' story resources available to investigate.

This term we have lots of planting to do in our allotment. We have been growing strawberries, radishes, brussels sprouts, carrots, basil, mint and lavender. I think our snack times are going to be very tasty!

Our outdoor barn has lots of recycled large loose parts to explore, such as tubes, material, pipes etc. If you have any unwanted items, please let us know and we can see if they are suitable for our barn project.

Family Evening

You are all invited to the nursery on Wednesday 10th July between 5:00pm and 7:00pm to celebrate your child's achievements. There will be lots of artwork on the nursery walls and you can chat to your keyworker about your child's progress.

Please feel free to bring your child along as I am sure they will enjoy showing you around the nursery. Please put your name on the list near the entrance door so we know who will be attending. If you can't attend, just let us know and we will arrange for your child's keyworker to chat with you at some point during the day before we finish for the summer break.

This is also an opportunity to discuss your child's school transfer records if they are leaving us this year. We will give you all the lovely photographs and observations in your child's folder.

Fund Raising

We raised over £220 for Red Nose Day!! THANK YOU

We have sent lots of Easter eggs with Joey to the Leeds Royal Infirmary!! THANK YOU

Emma has had her operation to help her walk and is recovering well. We are super excited to see her back at nursery for the Summer Term.

All the children are helping us to make eco-bricks which will be used in developing countries to build schools, wells etc. This develops fabulous cutting skills and a greater understanding of recycling plastics for a great cause.

Funded Hours

All codes must be renewed termly, otherwise your extra 15 hours entitlement will be lost!

You can use funded hours from 7.30am - 5.30pm

Please visit the website below for more information.
